

Does your Insurance plan Require an Authorization?

What you need to know...

Some insurance plans require our office (the PCP) to seek authorization for your visit with a specialist or imaging facility before they will treat you. This process is known as an Authorization. In order to complete an authorization we must submit information to your insurance carrier for approval. Most of this information we can gather from the specialists office and your medical file.

However, some information can only be provided from you; our patient.

Please use this form to help organize your visit with the specialist or imaging facility to prevent any delays in your care. You must inform Biggers Family Medicine of this information at least one week prior to your appointment with the specialist or imaging facility. You may call and speak with any of our receptionists or utilize our patient portal at

www.biggersfamilymedicine.com

Facility Name: _____

Date of your appointment: ___/___/_____

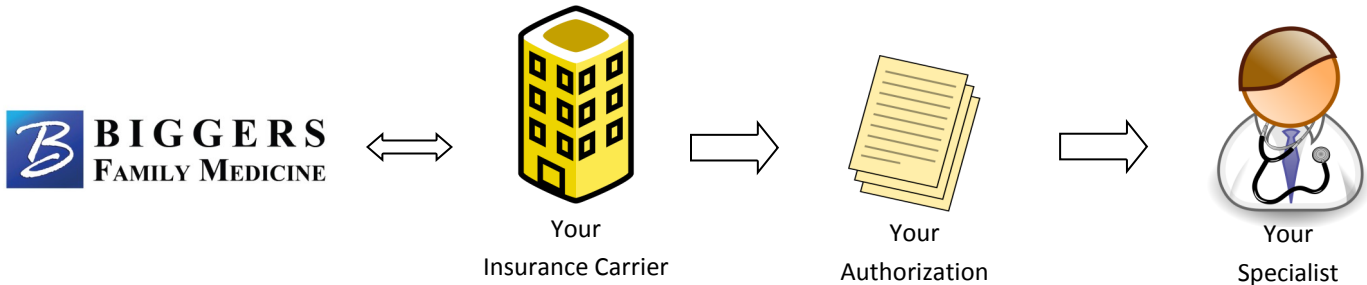

Time of your appointment: _____

Phone: (_____) _____ - _____

Fax number: (_____) _____ - _____

Physician you will be seeing (if known): _____
